BASF is ICAW’s Platinum Partner and the Compost Ball Sponsor!

BASF is the world’s leading chemical company: The Chemical Company. Its portfolio ranges from chemicals, plastics, performance products and crop protection products to oil and gas. We combine economic success, social responsibility and environmental protection. Through science and innovation we enable our customers in almost all industries to meet the current and future needs of society. Our products and system solutions contribute to conserving resources, ensuring healthy food and nutrition and helping to improve the quality of life. We have summed up this contribution in our corporate purpose: We create chemistry for a sustainable future.

BASF Australia is proud to be a platinum sponsor of International Composting Awareness Week and the Annual Compost Ball for 2012. Through its proof of concept trials – The COOL Project Mark I (Cooperation for Organics Out of Landfill) and The COOL Project Mark II: Adelaide Oval, BASF is committed to the diversion of organic waste from landfill through the use of compostable plastics, certified to Australian Standard AS 4736-2006 such as BASF Ecoflex® and Ecovio®. The contribution of compostable and therefore biodegradable plastics as an enabler in the diversion of organic waste from landfill is but one example of innovation and development resulting in products with functional performance useful for sustainable applications.
